# CIPP/E

European Data Protection covers essential pan-European laws and regulations, as well as industry-standard best practices for corporate compliance. Those taking this course will gain an understanding of the European model for privacy enforcement, key privacy terminology and practical concepts concerning the protection of personal data and trans-border data flows.

The training is based on the body of knowledge for the IAPP's ANSI-accredited Certified Information Privacy Professional/Europe (CIPP/E) certification programme.

# Meet your privacy challenges head on with **IAPP TRAINING**

## Data Is One Of Your Most Valuable Assets

Every day it is being accessed, shared, managed and transferred by people in your organisation—in all departments and at all levels. Unless your employees have a solid understanding of the considerations and challenges involved in managing data, you risk a data breach, diminished customer trust and possible enforcement action.

IAPP training can provide your staff with the knowledge they need to help you meet your privacy programme goals of reduced risk, improved compliance, enhanced brand loyalty and more. The IAPP offers privacy and data protection training programmes specifically designed to extend that knowledge to those on your team requiring a solid understanding of privacy principles and practices.

In order to help you drive privacy knowledge across your organisation, our comprehensive and flexible programmes can be suited to your specific needs and availability.

By investing in your staff with this globally recognised IAPP training, you'll give them the knowledge to make better decisions in their everyday work, which is fundamental to the success of your privacy programme.

# EUROPEAN DATA PROTECTION

## MODULES:

**Module 1: Data Protection Laws**
Introduces key European data protection laws and regulatory bodies, describing the evolution toward a harmonised legislative framework.

**Module 2: Personal Data**
Defines and differentiates between types of data, including personal, anonymous, pseudo-anonymous and special categories.

**Module 3: Controllers and Processors**
Describes the roles and relationships of controllers and processors.

**Module 4: Processing Personal Data**
Defines data processing and GDPR processing principles, explains the application of the GDPR and outlines the legitimate bases for processing personal data.

**Module 5: Information Provision**
Explains controller obligations for providing information about data processing activities to data subjects and supervisory authorities.

**Module 6: Data Subjects' Rights**
Describes data subjects' rights, applications of rights and controller and processor obligations.

**Module 7: Security of Processing**
Discusses considerations and duties of controllers and processors for ensuring security of personal data and providing notification of data breaches.

**Module 8: Accountability**
Investigates accountability requirements, including data protection management systems, data protection impact assessments, privacy policies and the role of the data protection officer.

**Module 9: Cross-border data transfers**
Outlines options and obligations for transferring data outside the European Economic Area, including adequacy decisions and appropriate safeguards and derogations.

**Module 10: Supervisions and Enforcement**
Describes the role, powers and procedures of supervisory authorities; the composition and tasks of the European Data Protection Board; the role of the European Data Protection Supervisor; and remedies, liabilities and penalties for non-compliance.

**Module 11: Compliance**
Discusses the applications of European data protection law, legal bases and compliance requirements for processing personal data in practice, including employers processing employee data, surveillance, direct marketing, Internet technology and communications and outsourcing.
